TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

[L. S.]

To the Inhabitants of the Town of Newton, qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall, in said Town, on the second Tuesday of March next, at nine o'clock in the forenoon to act upon the following subjects:

1. To bring in your votes for Town Clerk, one Selectman for three years, Town Treasurer, Tax Collector, Auditor, Road Surveyor, Trustee of Trust Funds for three years, Constable, Cemetery Trustee for three years, Sealer of Weights and Measures, Measurer of Wood and Bark, and Surveyors of Lumber, Health Officers, Fence Viewers and all other necessary Town Officers and Agents for the ensuing year.

The following articles will be acted upon at eight o'clock in the evening of the same date:

2. To raise such sums of money as may be necessary for paying Town debts and defraying the interest thereon, for the support and maintenance of the Public Library, and for other necessary charges arising in said Town.

3. To hear the reports of Town Clerk, Town Treasurer and Board of Selectmen to the Town Auditors, the reports of the Auditors, Agents, Committees, or the officers heretofore chosen or appointed and to pass any vote relating thereto.

4. To see if the Town will vote to authorize the Selectmen to hire money in anticipation of taxes.

TOWN REPORT

5. To see if the Town will vote to raise and appropriate \$350.00 (in addition to \$700.00 required by law), for State Aid Construction in order to secure State Aid of \$1,050.00.

6. To see if the Town will vote to raise and appropriate \$1,000 for Trunk Line Maintenance (the State will furnish \$5000).

7. To see if the Town will vote to raise and appropriate \$1,000.00 for State Aid Maintenance, (the State will furnish \$2,000.00).

8. On petition of nine voters:

To see if the Town of Newton will vote to install one street light near Earl Morse's Garage and appropriate money for the same.

9. On petition of (15) fifteen voters:

To see if the Town will vote to request the sum of (\$3000) three thousand dollars from the Harris Fund, towards the building of a new church in place of the one destroyed by fire a year ago.

10. To transact any other business that may legally come before said meeting.

Given under our hand and seal this 17th day of February, A. D., 1930.

AUDITORS' REPORT

Newton, N. H., Feb. 17, 1930

We have examined the accounts of the Selectmen, Treasurer, Tax Collector, Town Clerk and Treasurer of Gale Library Trustees, and find them correctly cast and proper vouchers for all disbursements.

We find the Town Officers above named properly bonded.

FREDERICK P. RICHARDS,
BEATRICE M. MORSE,
Auditors.

Newton, N. H., Feb. 17, 1930

We hearby certify that we have examined this day the accounts of the Trustees of the Trust Funds of said Town, that said Trustees have exhibited to us all the securities held by them, as above stated, together with a detailed statement thereof, and the particular trust to which they belong, with a statement of the receipts and expenditures with proper vouchers as required by Section 3, Chapter 162, of the Laws of 1915, and the amendments thereof.

We find the Trustees of the Trust Funds properly bonded.

FREDERICK P. RICHARDS,
BEATRICE M. MORSE,
Auditors.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Newton:

Herewith I submit to you my third annual report, together with the report of the School Nurse, Miss Helen Thomas.

We were very fortunate in having all the teachers of last year return for another year. There is a decided advantage in retaining the services of satisfactory teachers as long as possible.

There were 146 pupils enrolled in the schools last year. This is 40 less than the enrollment of year before last. The attendance averaged 90.5 per cent of the membership. This was about 4 per cent below the average for the State for this period and was caused by the amount of illness we had during the winter and early spring. The following table shows the number of pupils in attendance in the Newton schools during a period of years:

Number of pupils enrolled in 1926	133
Number of pupils enrolled in 1927	141
Number of pupils enrolled in 1928	186
Number of pupils enrolled in 1929	146

Twelve pupils have graduated from the eighth grade last June and eight of these entered High School. It now frequently happens that nearly all of the graduates enter High School. The great majority of parents feel that their children should at least have a High School training. This is indicative of the conviction regarding actual worth of the time spent in High School. At the present time there are about twenty-five hundred High School graduates

annually in this state; of these about one half go on to post secondary institutions. This indicates that the High School is no longer the end of educational necessities and desires.

The comparative cost of schools is of interest to the public. The per pupil cost in the Newton schools last year was \$70.24. In the 244 school districts of the state, 71 had a per pupil cost equal to or lower than ours while 173 had a greater cost. The median cost, per pupil for the whole state, was \$83.35. State aid is paying one half of the approved elementary school cost in Newton.

A standard school building is a building equipped with a jacketed heater or furnace, adjustable single desks for pupils and either flush or chemical toilets. The village building meets these requirements. At Rowe's Corner one room has the old type desks, and the toilets have not been improved. Newton Junction has a box stove, old type desks and outhouse toilets. Something should be done each year toward making the buildings standard.

An increasing number of school districts in this state have been arranging a school calendar which would provide for thirty-six actual weeks in school. We are at the present time about one week short of this ideal.

New Hampshire has had a decade of exceptional educational progress, and the State Board of Education, under the leadership of its chairman, Orton B. Brown, and State Commissioner, Ernest W. Butterfield has had an interesting and important review of the achievements of the ten years.

At a meeting held recently at the Concord High School and at which meeting nearly three hundred school board members and superintendents attended, the following facts were emphasized:

New Hampshire adopted a new school code in

1919, which has been in operation for ten years. The code has raised the quality of the schools in the less favored districts, financially. It magnified need of higher efficiency in the rural and elementary city schools. It gave added power and increased support to the State Department of Education, especially authorized it to create standards of attainment for secondary and private schools.

The code of 1919 provided equal length of school year for cities and rural communities, and no school in the state is in session less than thirty-six weeks. Now boys and girls in the most remote districts in New Hampshire are as well prepared for high school as those of the cities. The high school attendance increased forty per cent. in ten years, and twice as many high school students go to college as ten years ago. The high school enrollments have increased six times as many as in elementary schools.

In 1919 few one-room schools had a teacher who had a normal school education; now a majority of these schools are taught by normal school graduates. In 1919 many children were far from high school opportunities; now 90 per cent. are within easy driving distance of a high school. Now all schools have the advantage of school superintendents who are college graduates, who have taught at least five years, who have satisfactory personal and professional records, and give their entire time to school supervision.

No new untrained teachers are employed and only untrained teachers of successful experience are retained.

Before 1919 one-fifth of the schools changed teachers during the year. The mid-year change of teachers in 1919 was 540. In 1929 it was only 98.

In nothing has there been greater progress

than in the professional service rendered by the State Normal Schools at Plymouth and Keene. They are graduating students from the four-year course and every graduate is engaged in the state at once. They also graduate students from two-year and three-year courses for elementary and junior high schools, and they are all employed in the state.

In only eight of the forty-eight states is the state tax for local public schools as low as in New Hampshire. In the state five times as much tax money is paid teachers as is expended for school buildings; and twenty-six times as much for teachers as for all administrative expenses.

The children and teachers at Newton are well equipped with modern books and supplies. School books were never so attractive and interesting as at the present time. Parents have noticed this and often speak about it.

The work of the schools is progressing well this year. Achievement tests given at intervals, show that good progress is being made. Our schools are engaged in moral training all day long. Character education is a by-product of all other education and far more important than the direct product. Children reflect in their behavior the influences that reach them. To spend five or six hours a day in a class room where the virtues of courtesy, politeness, kindness, sympathy, unselfishness, thoughtfulness, orderliness, truthfulness, sincerity, industry, patience and justice are practised unconsciously, is of inestimable moral value.

In conclusion I would thank the School Board for their generous support and commend the time and energy that they have expended so generously for the good of the schools. I would also commend the effective and loyal work of the teachers in guid-

ing the pupils forward on the road to citizenship.
The work of the year has been very pleasant.

Respectfully submitted,

WILLIAM J. NELSON,
Superintendent of Schools.

REPORT OF BUILDING COMMITTEE

To the Citizens of Newton, N. H.:

At our last school meeting it was voted that a committee of three be appointed to serve with the School Board to study the building situation at the Village and Rowe's Corner schools, and bring in recommendations with a view of adding one room to relieve the crowded condition which exists.

After careful study of these buildings it is our opinion and recommendation that the Rowe's Corner school is the building to alter insofar as results and economy are concerned. For an estimated cost of \$5,000 the Rowe's Corner school could be put into one of the finest two room school buildings in our State—modern, complying with every State requirement, a pleasing building to look on and a credit to our town. It is difficult to describe this building so that you could picture in your mind just how it would look but a slight description would give some idea.

The building itself would be 57 feet 6 inches by 22 feet 6 inches permitting two standard size class rooms of 28 feet by 21 feet 6 inches, each room having 6 large windows or 12 windows extending across the entire back of the building. It would have a center projection for entrance and accessory rooms which would be namely: cloak room, stock room and chemical toilets.

Estimate based as follows:

Alteration of building including elec-

trical work and installation of toilets \$3,287.00

Chemical toilets 410.00

Scholars' desks 550.00

Teachers' desks	60.00
Teachers' and guest chairs	20.00
Blackboards	50.00
Window shades	50.00
Amount sufficient for heater, underes- timated items and minor expenses	573.00
<hr/>	
Total	\$5,000.00

No consideration is given as to what from of heating should be installed feeling that, should our recommendations be accepted, those in charge should consult reliable authorities who could advise what form and ventilation should be installed.

In considering the Village school we figured that in any form this building might be changed it would cost at least \$7,000.00 for alterations which would not include work on toilets, cellar, electric lights or heating device. As there is but a driveway on either side of the building extension there would mean purchase of more land and an entire change of entrance to the building. The cellar as it now is was never really completed and additional ground work would be necessary. If the addition was made to the rear of the building it would be advisable to run the addition the height of the entire building, otherwise the looks of the building would be spoiled.

Speaking, in general, this building is in too good a condition to be tampered with and any project of this kind would be expensive. The suggestion "Better build new where so much money is involved" is true.

Our superintendent, W. J. Nelson was present at every meeting and on inspection trips, his services were very valuable keeping the committee to State requirements. When sketch was completed we sent it to State Deputy Commissioner of Education James N. Pringle, Concord, N. H. for his inspection

who returned it with his approval and we are quoting him as saying, "A building remodeled in this way becomes in appearance when finished not an old building with two ells but a long building with a center projection for entrance and accessory rooms. I am sure its appearance will not be displeasing."

Our committee takes this opportunity to thank both of these gentlemen for their assistance and valuable services rendered in this matter.

At this writing the committee is trying to get a photograph for exhibition which would show as near as possible how building would look when completed.

We take this manner of submitting our report to the voters, so they may have time to give the matter consideration before taking action at the school meeting. To anyone interested L. P. Leith (Boston & Maine Station) Newton Junction, has a sketch of the proposed building which he will gladly show and explain, or consult any member of the committee.
